

CROSS COUNTRY MANUFACTURING

Engineered for today. Built for a lifetime.

420BCL Clamshell Belly Dump Trailer

Cross Country Manufacturing's Clamshell Belly Dump's unique design allows for precise control and efficient unloading, enhancing productivity and reducing time spent at the job site.

The clamshell doors at the bottom of the trailer provide a controlled and even discharge of materials, preventing spillage and minimizing waste. This feature also enables precise placement of the aggregate or asphalt, making it ideal for projects that require accurate spreading or layering. Additionally, the trailer's large capacity allows for significant haulage, reducing the number of trips needed and increasing overall efficiency. With their versatility, durability, and improved loading and unloading capabilities, clamshell belly dump trailers are a reliable choice for the transportation of aggregate and asphalt.

Our Clamshell Belly Dumps are manufactured in Canada using premium steels, thereby reducing tare weight and optimizing payload for the long haul.

Additional Features

- 42' overall length
- 102" width
- 24.4 cubic yards level to the top
- Fabricated frame rails and crossmembers constructed from 100,000 PSI high tensile steel
- Tapered sidewall
- Lubrication and filter for air cylinders
- 30,000 lb Hendrickson air ride suspension
- 25,000 lb axles with parallel axle ends, camshaft tubes and dustshields
- Steel wheels available in 22.5" and 24.5"

Options

- Tarps: flip style, slide tarp, side roll
- Electric tarp drive
- External gate cylinders
- Aluminum wheels
- Lift axle
- Axle guards (windrow deflectors) on 2nd and 3rd axles
- Custom colors
- Vibrator
- UHMW liner
- Front and rear shed plates
- Electronic gate (infinite) control
- LED work lamps
- Strobe lamps
- Placard holders
- Air, electrical and pintle hook configuration for trains

8" Composite Cylinders With Threaded Clevis

Electronic Gate Stops

Walk along gate control located on the hopper sidewall

11' Gate Openings
