

CROSS COUNTRY MANUFACTURING

Engineered for today. Built for a lifetime.

**350RE-DF Full Frame**

**Cross Country Manufacturing's Full Frame End Dump trailers are engineered with a drop frame design and lower tipping hinge to provide increased stability while unloading.**

Our Full Frame End Dump lineup meets North America's diverse provincial and state requirements. We design these trailers to meet your specific region's geographic needs, with the ability to operate in some of the most challenging terrain. Full Frame End Dumps are available in tandem, tri-axle, and quad-axle configurations.

Our Full Frame End Dumps are manufactured in Canada using premium steels, thereby reducing tare weight and optimizing payload for the long haul.
