Alliance Heavy Duty Clutches offer a genuine alternative to original first fit clutches without sacrificing quality or reliability. Built to OE specifications for most makes and models of heavy-duty trucks, to ensure confident, smooth shifting and long clutch life.

The DT12 clutch included two options for both the 6-spring and 5-spring models. The organic friction material allows for a smooth engagement. The DT12 clutch will work in vehicles produced with DT12 transmission manufactured 2012 to today.
